

The Delineator Magazine for Women,
 Selections from November 1901 Issue
 Compiled by Ann Lenore Vanture,
 to scale for 1:12 dollhouses, Prod. No. be211

Required tools and supplies:

- X-acto knife and fresh blade
- A thin metal straight-edge ruler. Make fold lines by pressing against edge of the ruler.
- Detailing scissors
- Good cutting mat (cardboard will ruin your blades)
- Fast-grab, quick-dry white craft glue that dries clear
- A glue stick
- Small piece of aluminum foil to use as a glue pot
- Slender artist's paint brush to apply glue
- A couple of small office binder clips

1. Cut out the page strips. Note that the two "end board" pages are slightly larger. Fan fold all page strips taking care that the raw edges line up perfectly. There are little tabs at one end of panels.

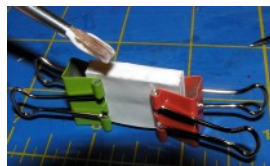

2. Use the glue stick to glue the little connecting tabs to the back of the respective panel. You will end up with a long accordion strip.

3. Next, carefully add a layer of glue stick to the back side of the strip ensuring the edges are covered. You may wish to do a little at a time in conjunction with the next step. **DO NOT SPREAD GLUE TO BACKS OF END BOARDS!** The end boards are the larger advertisement pages found at each end of the long strip of pages.

4. This is how the book pages will look when pages are glued back-to-back.

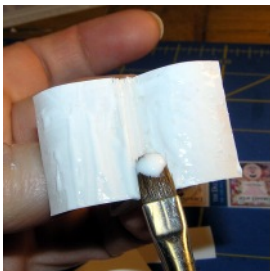

5. Compress the stack of pages and pinch pages with the office clips leaving the spine side exposed. Use the artist's brush to paint a thick even coat of glue to the length of the pages along the spine. Set aside to dry thoroughly.

6. Cut out the laminated cover piece using detailing scissors so that you do not slip on the laminate.

7. There are two guidelines on the cover. Use the edge of a ruler to fold at those guidelines. Test the fit of the pages bundle before moving to the next step.

8. Paint glue to the blank side of the 'end boards' and the spine. Use plenty of glue so it stays wet long enough for you to position the pages before a sticking bond occurs.

9. Position the unit carefully on the inside of the book cover. Flatten out edges. End pages are too small in photo, but your end pages will fit perfectly in the cover.
